

Job Name: Livelink ECM – Zone OCR demo
Integration Type: Livelink ECM

Description:

This Job uses zonal OCR to extract the Supplier Name, Invoice Number, Invoice Date, and Total fields from the sample images provided. When an image is submitted it is converted into a PDF file; the extracted fields are concatenated as the name of the file; and then the file is uploaded to the Folder on the Livelink ECM server that was specified during the configuration. This job requires the EzeScan PRO, KFI and Upload modules.

Compatibility:

EzeScan 4.2.87 or higher

Installation Instructions:*Copy Sample Document(s)*

- Copy the file "Zone OCR.tif" from the Scan Original folder into the folder –
C:\Program Files\Outback Imaging\EzeScan 4.2\Samples

Note: If you are planning on scanning the image then open the above file and print it. When scanning it is recommended to scan the documents at a resolution of 300 DPI.

Import Sample Configuration

- Open EzeScan and select the Admin menu > Settings Backup > Import option.
- Click the ... button and browse to the "Livelink ECM – Zone OCR demo.cfg" file.
- Select Import All Items Below.
- Tick the KFI Templates option.
- Click the Import button.
- When the import has finished click the Close button.

Configure the Job settings

- Select the Admin menu > Job option.
- Select "Livelink ECM – Zone OCR demo" from the Job Type drop down list.

Note: To use a TWAIN or ISIS scanner with this Job, configure the Scan Tab settings for your scanner. Or to use a network scanner with this Job, on the Import tab change the input path to where your device saves the images to. You could also select Enable Import Folder Processing option so then there will be no need to browse for the image - Import folder will pick up images in the input folder automatically.

- Click the Save button.

- If prompted to create the output directory click Yes.
- Click the Close button.

Configure the Upload settings

- Select the Admin menu > Upload option.
- Select "Livelihood ECM – Zone OCR demo" from the Upload Type drop down list.
- In the Upload Properties pane specify your Livelihood ECM connection settings.
- In the Upload Mappings pane locate the Target Field "Document/Folder". Click in the Field Value cell and then click on the ... button that appears to browse for the Folder in the Livelihood ECM server where the documents will be saved to.
- Click the Apply button and OK.

Operation Instructions:

- 1) Select the Admin menu > Job option or press F6.
- 2) Select the "Livelihood ECM – Zone OCR demo" Job from the drop down list.
- 3) Click the Import File Button and select the "Zone OCR.tif" file.
Note: If using a TWAIN or ISIS scanner press the Scan button instead, or the Import Folder button if using a network scanner.
- 4) The image will load into the viewer, press the F4 button. EzeScan will now OCR the Supplier Name, verify if it is correct. Press the right arrow button or Press Enter.
- 5) You will be now directed to the Invoice Number Field. EzeScan will now OCR the Invoice Number, verify if it is correct. Press the right arrow button or Press Enter.
- 6) You will be now directed to the Invoice Date Field. EzeScan will now OCR the Invoice Date, verify if it is correct. Press the right arrow button or Press Enter.
- 7) You will be now directed to the Total Field. EzeScan will now OCR the Total, verify if it is correct. Press the right arrow button or Press Enter.
- 8) The image will then get converted to a PDF file and uploaded into the Livelihood ECM Folder that was selected during the configuration. Repeat steps 4 to 7 until no more documents remain in the batch.
